Research and Innovation Forum List

1) Non-invasive positive pressure in the Observation Unit: A Case Series.
   a) Authors: Wheatley MA, Kim I, Wu DT, Vora A, Maberry D, Osborne AD
2) A Survey of Observation Medicine Training in Emergency Medicine Residency Programs
   a) Authors: Papale, Nino; Pena, Margarita
3) Teaching Observation Medicine Through a Serious Game
   a) Authors: Lee, Elizabeth
4) Observation Status for Patients Presenting with Chest Pain
   a) Authors: Ghantarchyan, Henrik
5) A Low Risk Chest Pain Pathway utilizing the HEART score, enzyme testing, Coronary CT Angiogram (CCTA), and ASCVD scores in a Type 4 Observation Emergency Department (ED) Observation Unit (CDU)
   a) Authors: Wilson, Jason
6) Length of Stay in the Observation Unit and Emergency Department: Does Age Matter?
   a) Authors: Heitkamp, Alyssa, Kornbluth, Rachel, Mace, Sharon MD
7) Geriatric Patients' Length of Stay is Longer in the Observation Unit, but Not in the Emergency Department
   a) Authors: Heitkamp, Alyssa, Kornbluth, Rachel, Mace, Sharon MD
8) Adult OU Patients Undergo Significantly More Diagnostic Blood Tests Than Pediatric OU Patients
   a) Authors: Heitkamp, Alyssa, Kornbluth, Rachel, Sharon, Mace MD
9) In Adults Age is a Significant Predictor of the Degree of Diagnostic Blood Testing Performed in the OU
   a) Authors: Kornbluth, Rachel, Heitkamp, Alyssa, Sharon, Mace MD
10) Differences in Medications Administered in the OU Are a Function of Age With Pediatric Patients Receiving Fewer Medications Than Adults in the OU
    a) Authors: Kornbluth, Rachel, Heitkamp, Alyssa, Mace, Sharon MD
11) ICU Days avoided by using EDOU for mild TBI
    a) Authors: Wheatley M, Osborne A, O'Walsh-Sullivan
